

INDIAN WEDDING ANALYSIS

- Most purchases are concentrated in the lower-to-mid price range, indicating that the majority of customers prefer moderate wedding clothing budgets.
- There is no strong linear relationship between bride and groom clothing costs, as the points are widely scattered across the chart.
- High-spending outliers are present for both bride and groom attire, showing that a smaller segment of customers opts for premium or luxury wedding fashion.
- Groom clothing expenses vary significantly even when bride clothing costs are similar, suggesting independent purchasing decisions.
- Bride clothing costs span a broad range, reflecting diverse preferences in wedding fashion and budgeting.
- Overall spending behavior appears highly diverse, with customers following different budget priorities rather than a consistent spending pattern across both outfits.

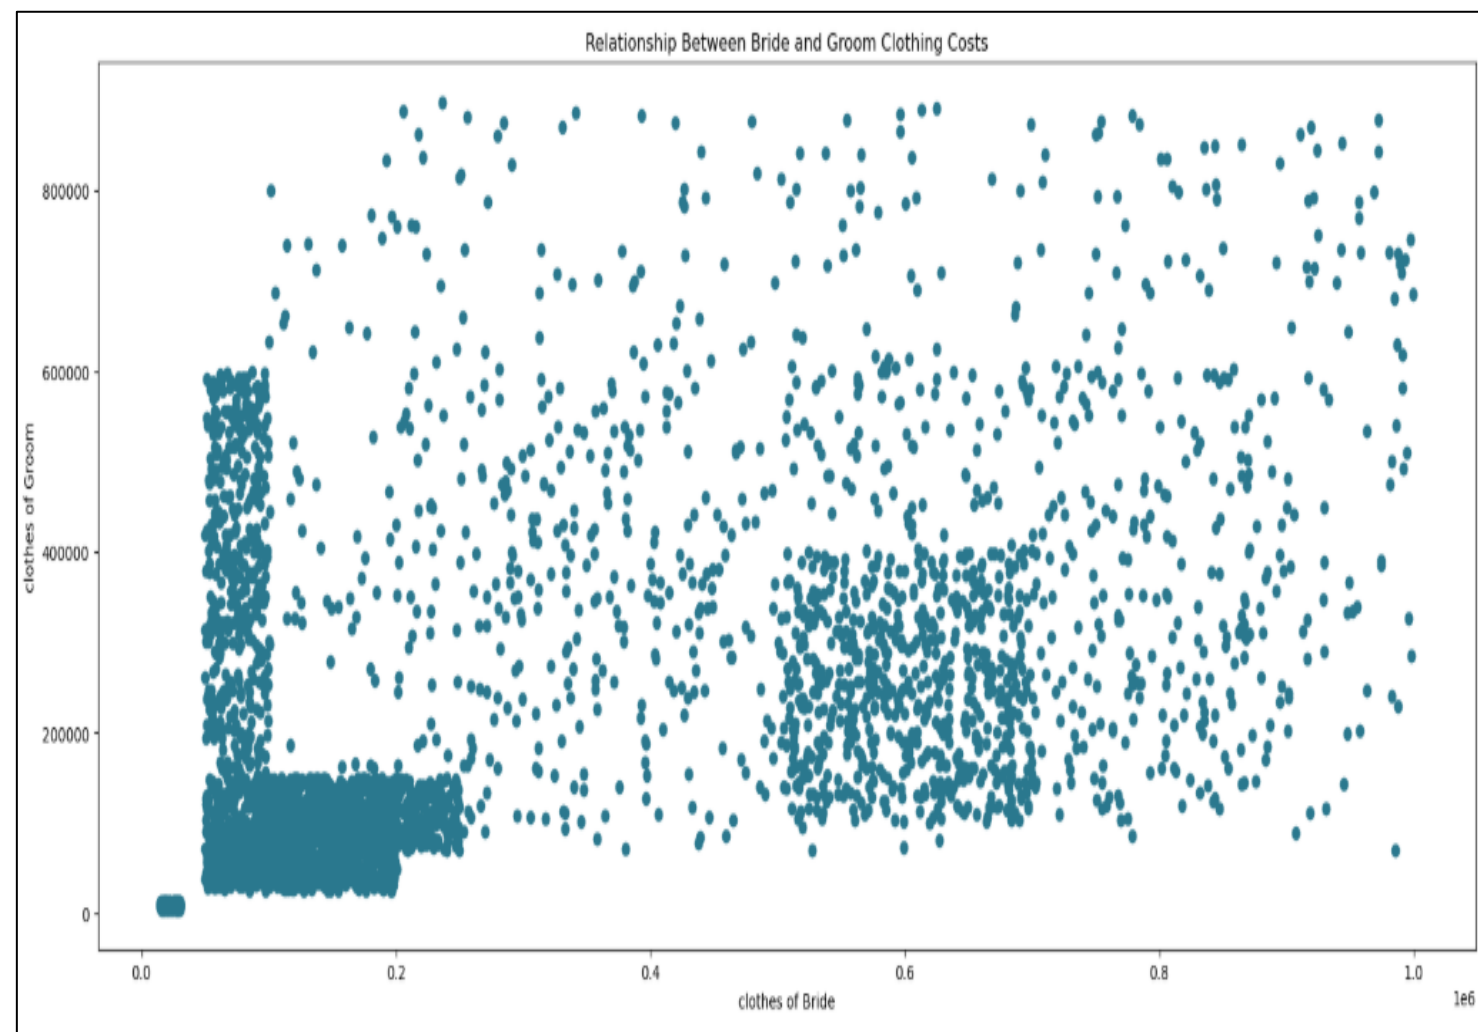

Figure 1 :- Relationship between Bride and Groom Clothing cost

- **Heritage Weddings** have the highest average cost at approximately **₹8.7 million**, making them the most expensive ceremony type in the analysis. **Palace Weddings** rank second with an average cost of around **₹7.0 million**, reflecting the premium associated with luxurious venues and grand celebrations.
- **Cruise Weddings (₹5.9 million)** and **Destination Weddings (₹4.5 million)** also require substantial budgets, highlighting the higher costs of travel-based ceremonies.
- **Beach Weddings (₹3.2 million)**, **Farmhouse Weddings (₹2.8 million)**, and **Resort Weddings (₹2.5 million)** offer comparatively more budget-friendly alternatives.
- **Hotel Weddings** have a relatively low average cost of approximately **₹0.65 million**, making them a cost-effective choice for many couples.
- **Temple Weddings** are the most economical option, with an average cost of only **₹0.05 million**, reflecting their simple and traditional nature.
- **Key insight:** The choice of wedding venue has a significant impact on the overall ceremony budget, with luxury venues commanding several times the cost of traditional or conventional options.

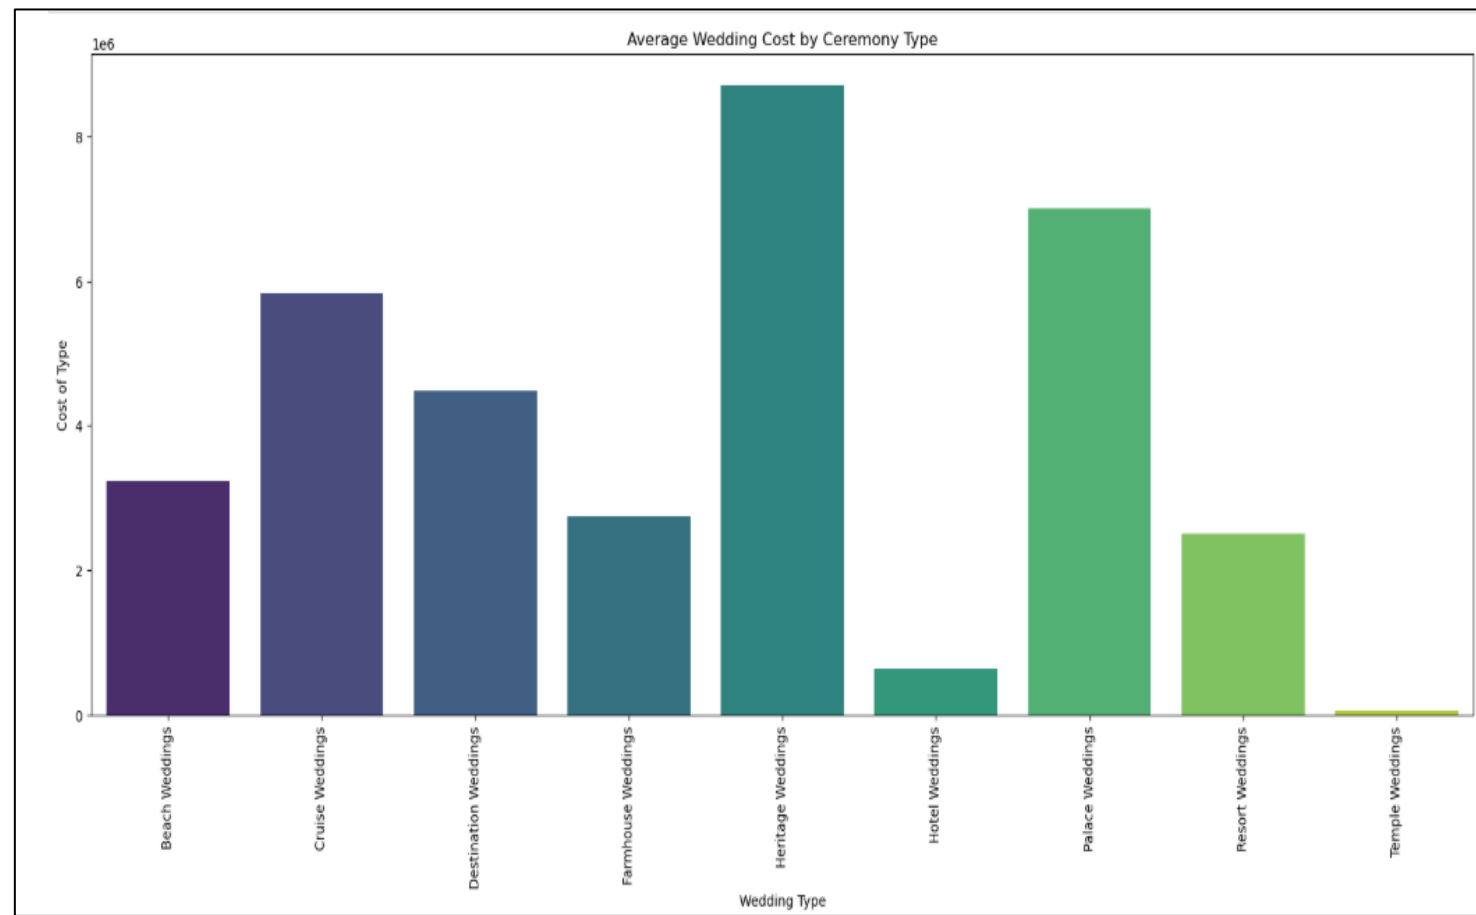

Figure 2 :- Average Wedding cost by ceremony Type

- **Heritage Weddings** account for the largest share of the average wedding cost at **24%**, making them the most expensive ceremony type.
- **Palace Weddings** contribute **19%** of the total average cost, reflecting the premium associated with luxury venues and grand celebrations. **Cruise Weddings (16%)** and **Destination Weddings (12%)** together represent a significant portion of wedding expenses, highlighting the popularity of travel-based ceremonies.
- **Beach Weddings** make up **9%** of the overall cost distribution, offering a balance between luxury and affordability. **Farmhouse Weddings (7%)** and **Resort Weddings (7%)** have similar cost shares, making them attractive mid-range options for couples.
- **Hotel Weddings** account for only **1%** of the total average cost, indicating a relatively economical choice compared to luxury venues.
- **Temple Weddings** contribute **less than 1%** of the overall cost, making them the most budget-friendly ceremony option.

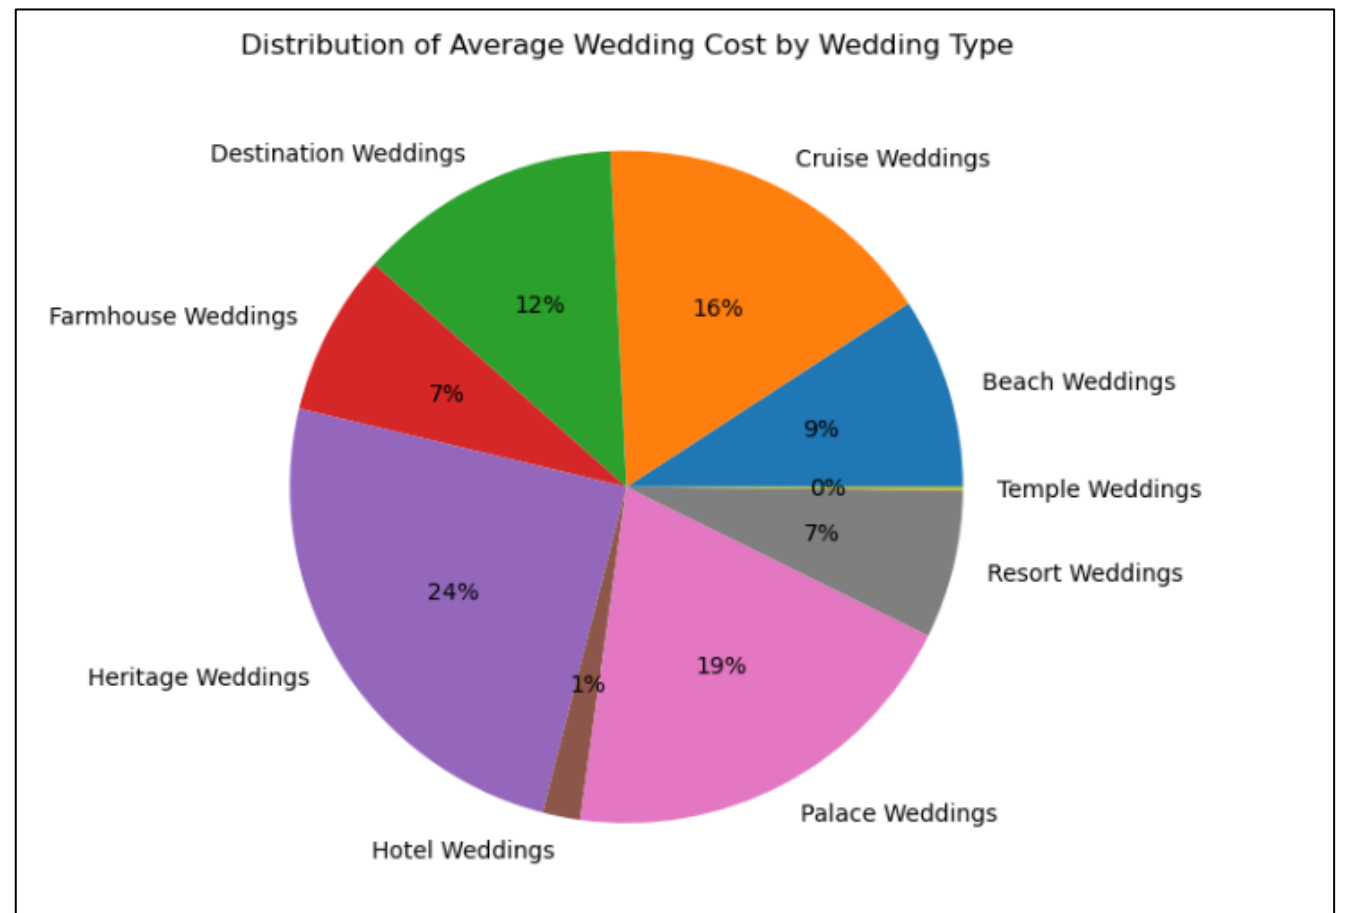

Figure 3 :- Distribution of average wedding cost by wedding type

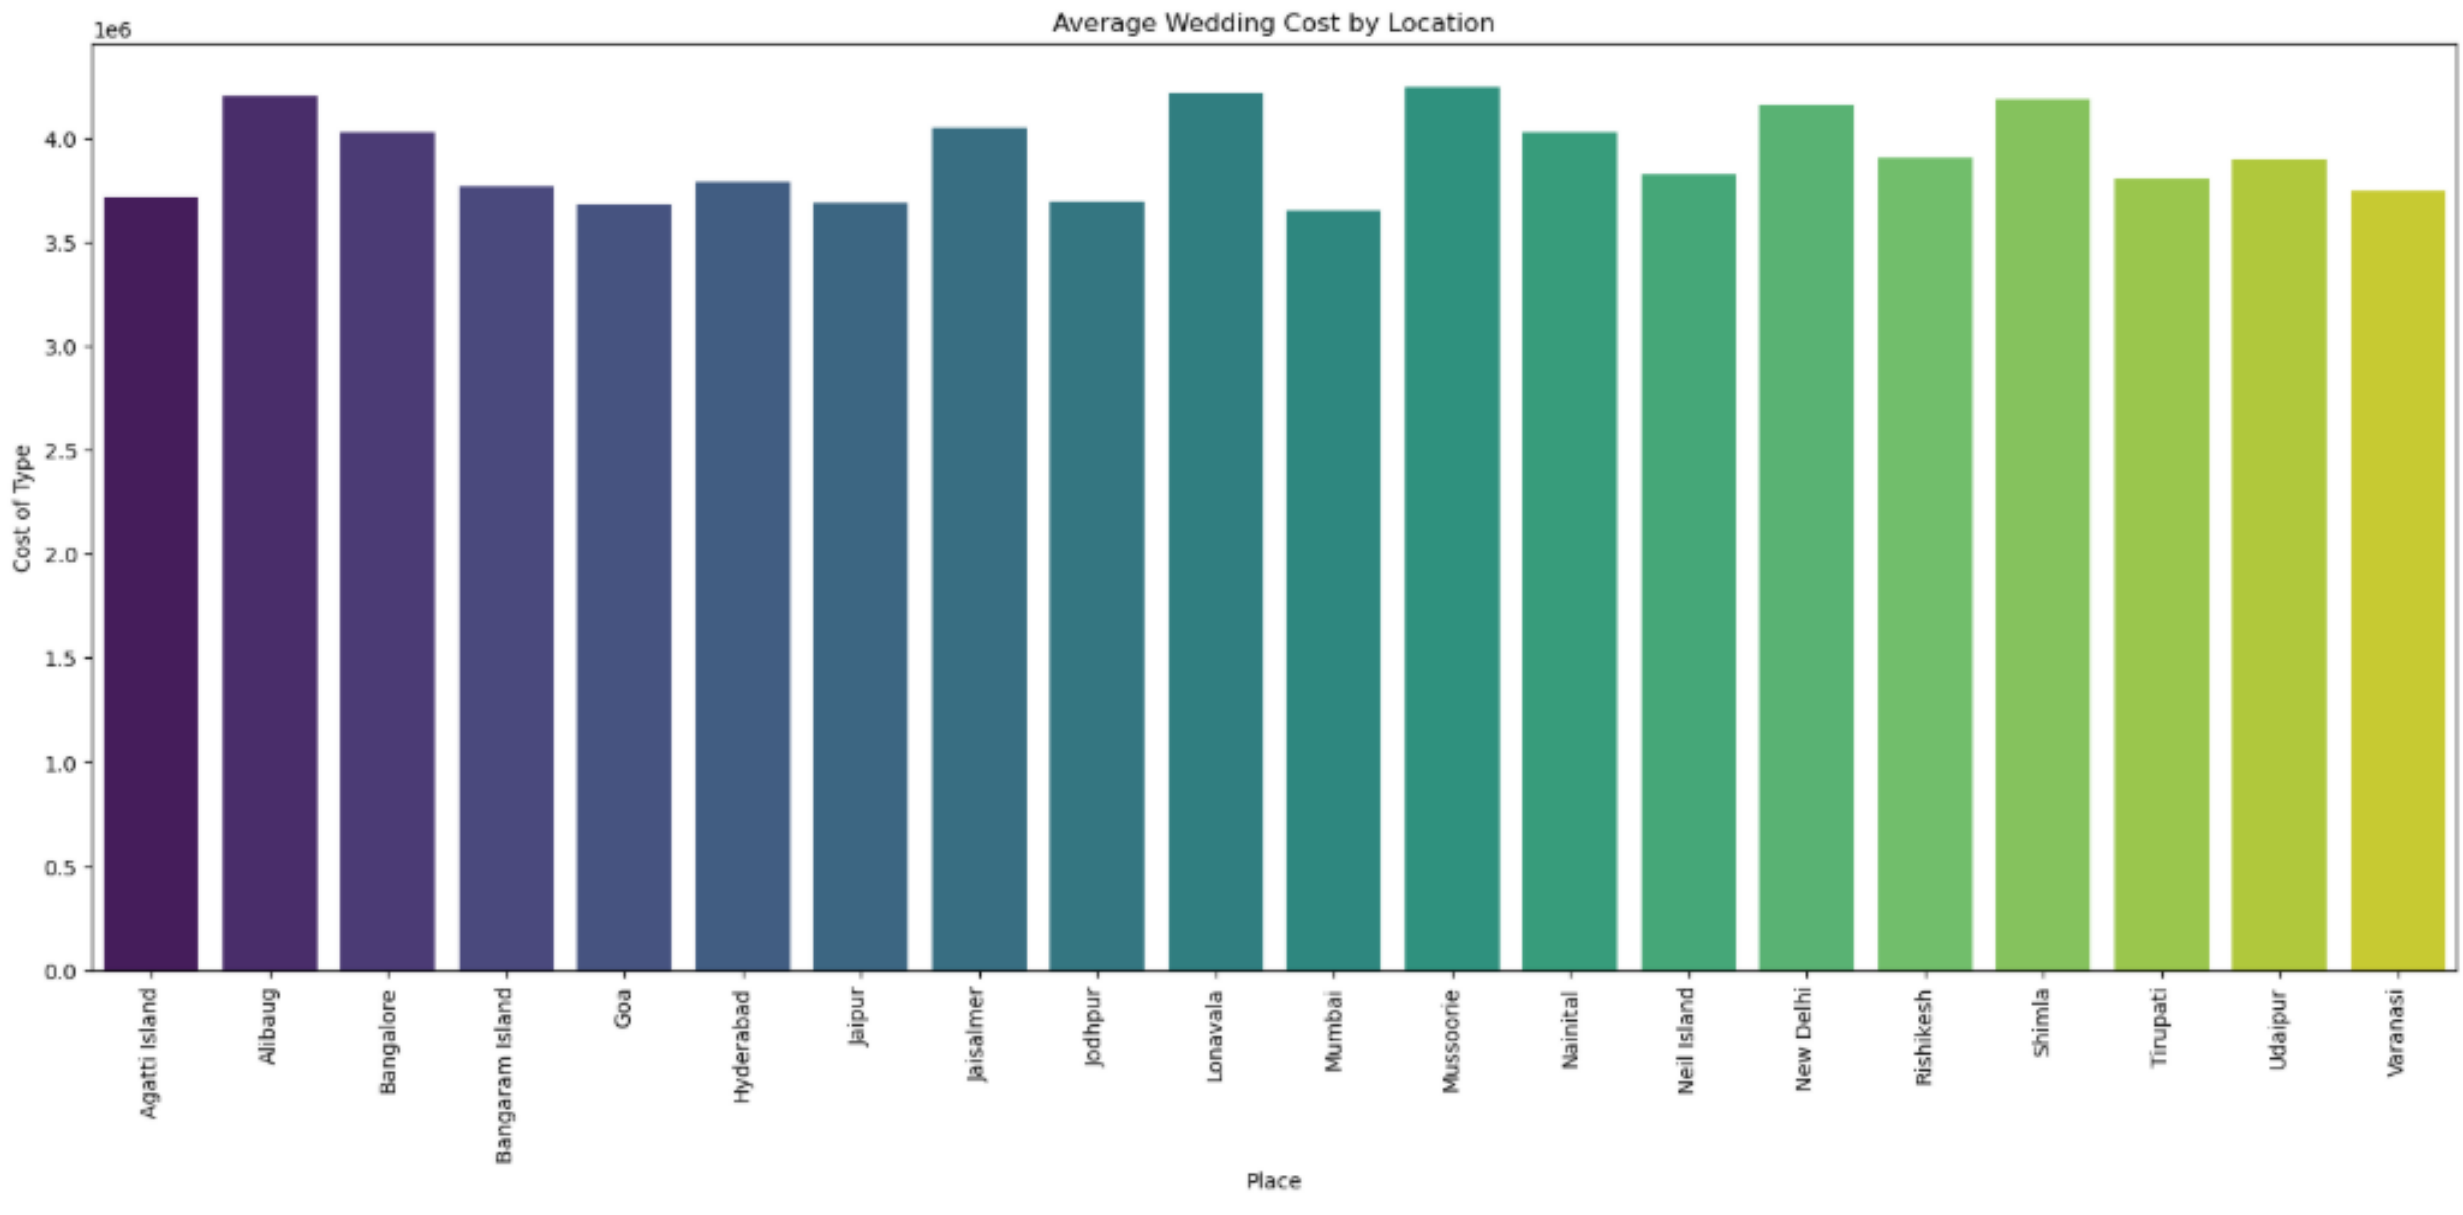

Figure 4 :-Average Wedding cost by Location

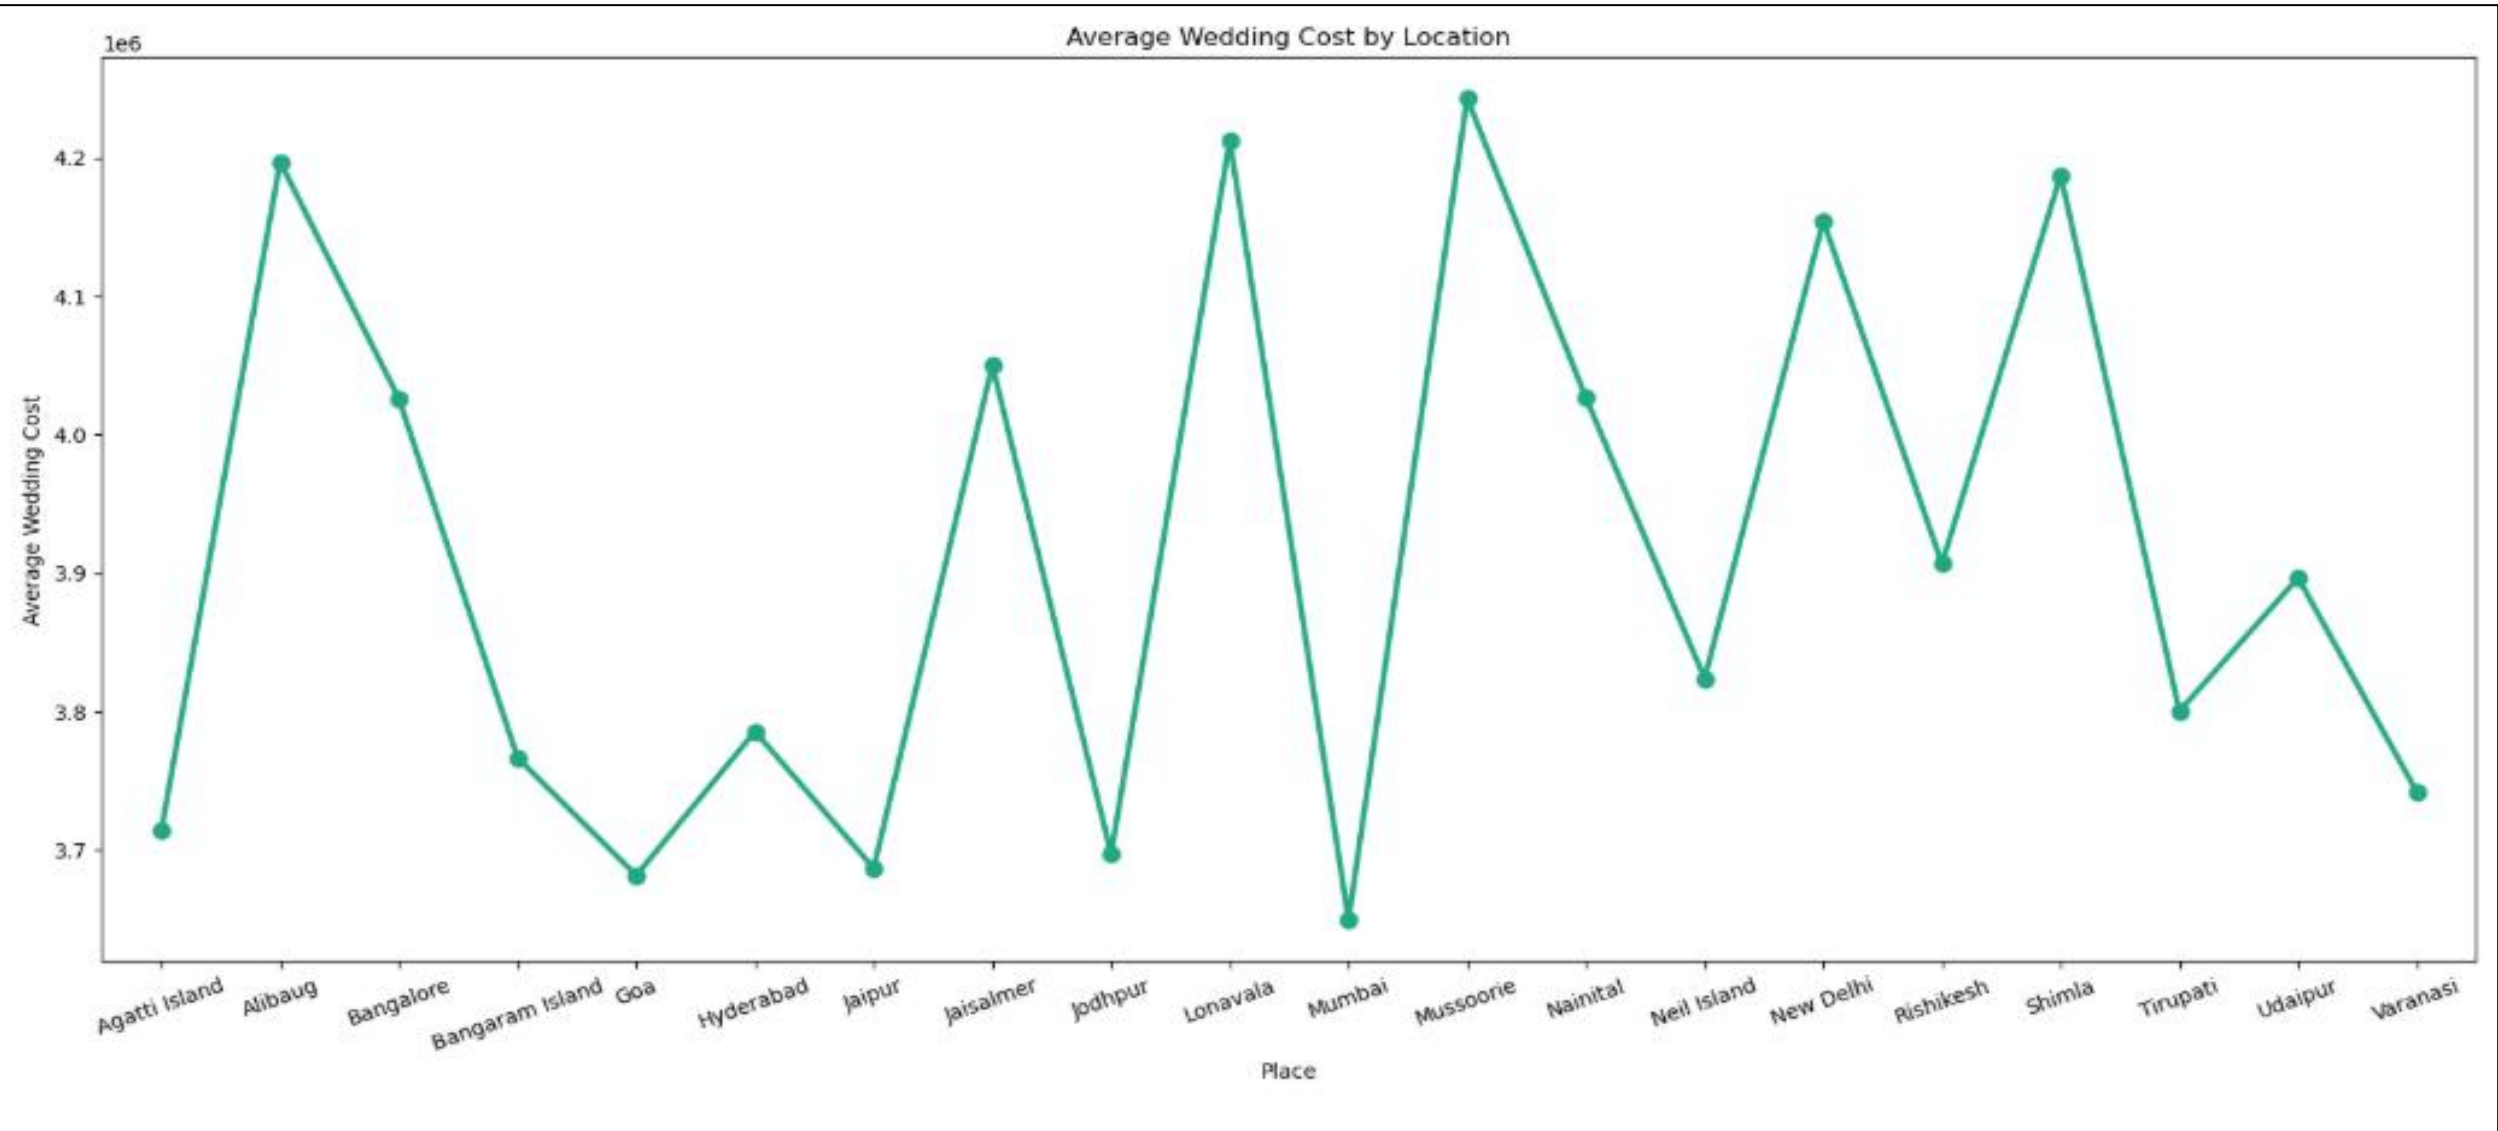

Figure 4 :-Average Wedding cost by Location

- **Mussoorie** records the highest average wedding cost at approximately **₹4.24 million**, making it the most expensive destination in the dataset.
- **Lonavala (₹4.21 million)**, **Alibaug (₹4.20 million)**, **Shimla (₹4.19 million)**, and **New Delhi (₹4.15 million)** also rank among the costliest wedding locations.
- Popular destinations such as **Bangalore (₹4.03 million)**, **Nainital (₹4.03 million)**, and **Jaisalmer (₹4.05 million)** maintain relatively high average wedding budgets.
- Mid-range destinations include **Rishikesh (₹3.91 million)**, **Udaipur (₹3.90 million)**, **Hyderabad (₹3.79 million)**, and **Neil Island (₹3.82 million)**, offering a balance between luxury and affordability.
- **Mumbai (₹3.65 million)** has the lowest average wedding cost among the listed locations, followed closely by **Goa (₹3.68 million)**, **Jaipur (₹3.69 million)**, and **Jodhpur (₹3.70 million)**.
- The variation in average wedding costs across destinations is relatively moderate, ranging from **₹3.65 million to ₹4.24 million**, indicating that location influences the budget but not as dramatically as the choice of wedding type.
- **Key insight:** While all destinations require a substantial investment, scenic hill stations and premium tourist destinations generally command higher wedding budgets than metropolitan or traditional wedding locations.

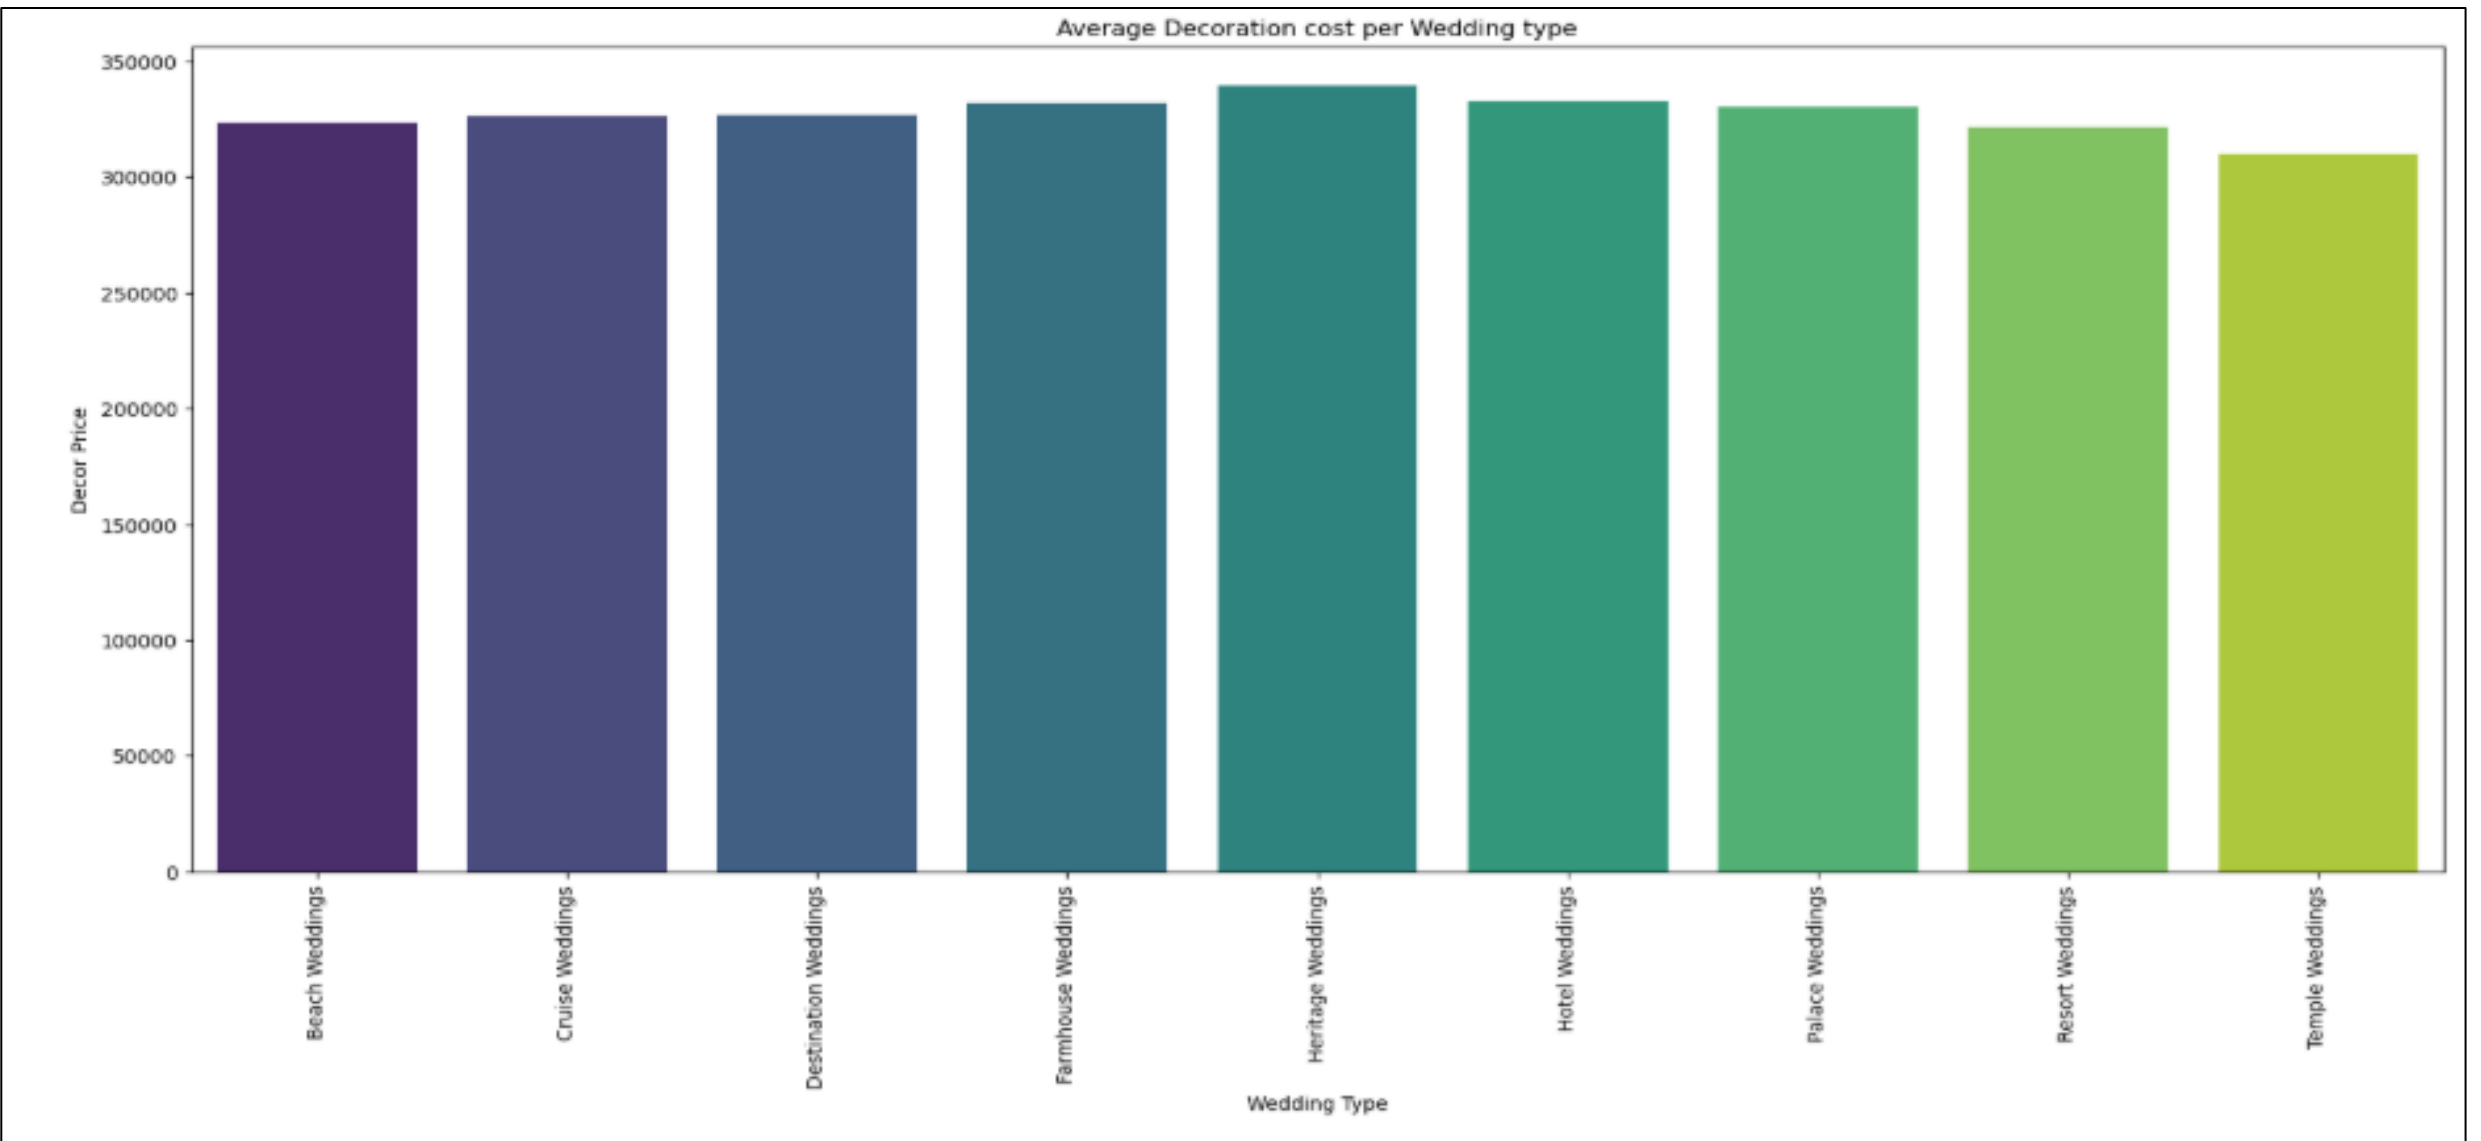

Figure 5 :- Average Decoration Cost per Wedding Type

- **Heritage Weddings** have the highest average decoration cost at approximately **₹339,522**, reflecting the premium décor required for grand heritage venues.
- **Hotel Weddings (₹332,493)** and **Farmhouse Weddings (₹332,040)** also involve significant decoration expenses, emphasizing the importance of venue aesthetics.
- **Palace Weddings** average around **₹330,276**, showcasing the high investment needed to complement luxurious and royal settings.
- **Destination Weddings (₹326,682)** and **Cruise Weddings (₹326,387)** have nearly identical decoration costs, indicating consistent décor budgets for travel-based celebrations.
- **Beach Weddings** require an average decoration cost of **₹323,378**, while **Resort Weddings** are slightly lower at **₹321,578**, making them comparatively economical among premium venues.
- **Temple Weddings** record the lowest average decoration cost at approximately **₹310,287**, reflecting their simpler and more traditional setup.
- **Key insight:** Decoration expenses remain relatively consistent across wedding types, ranging from **₹310,287 to ₹339,522**, suggesting that venue style influences décor costs, but the variation is less significant than the overall wedding budget.

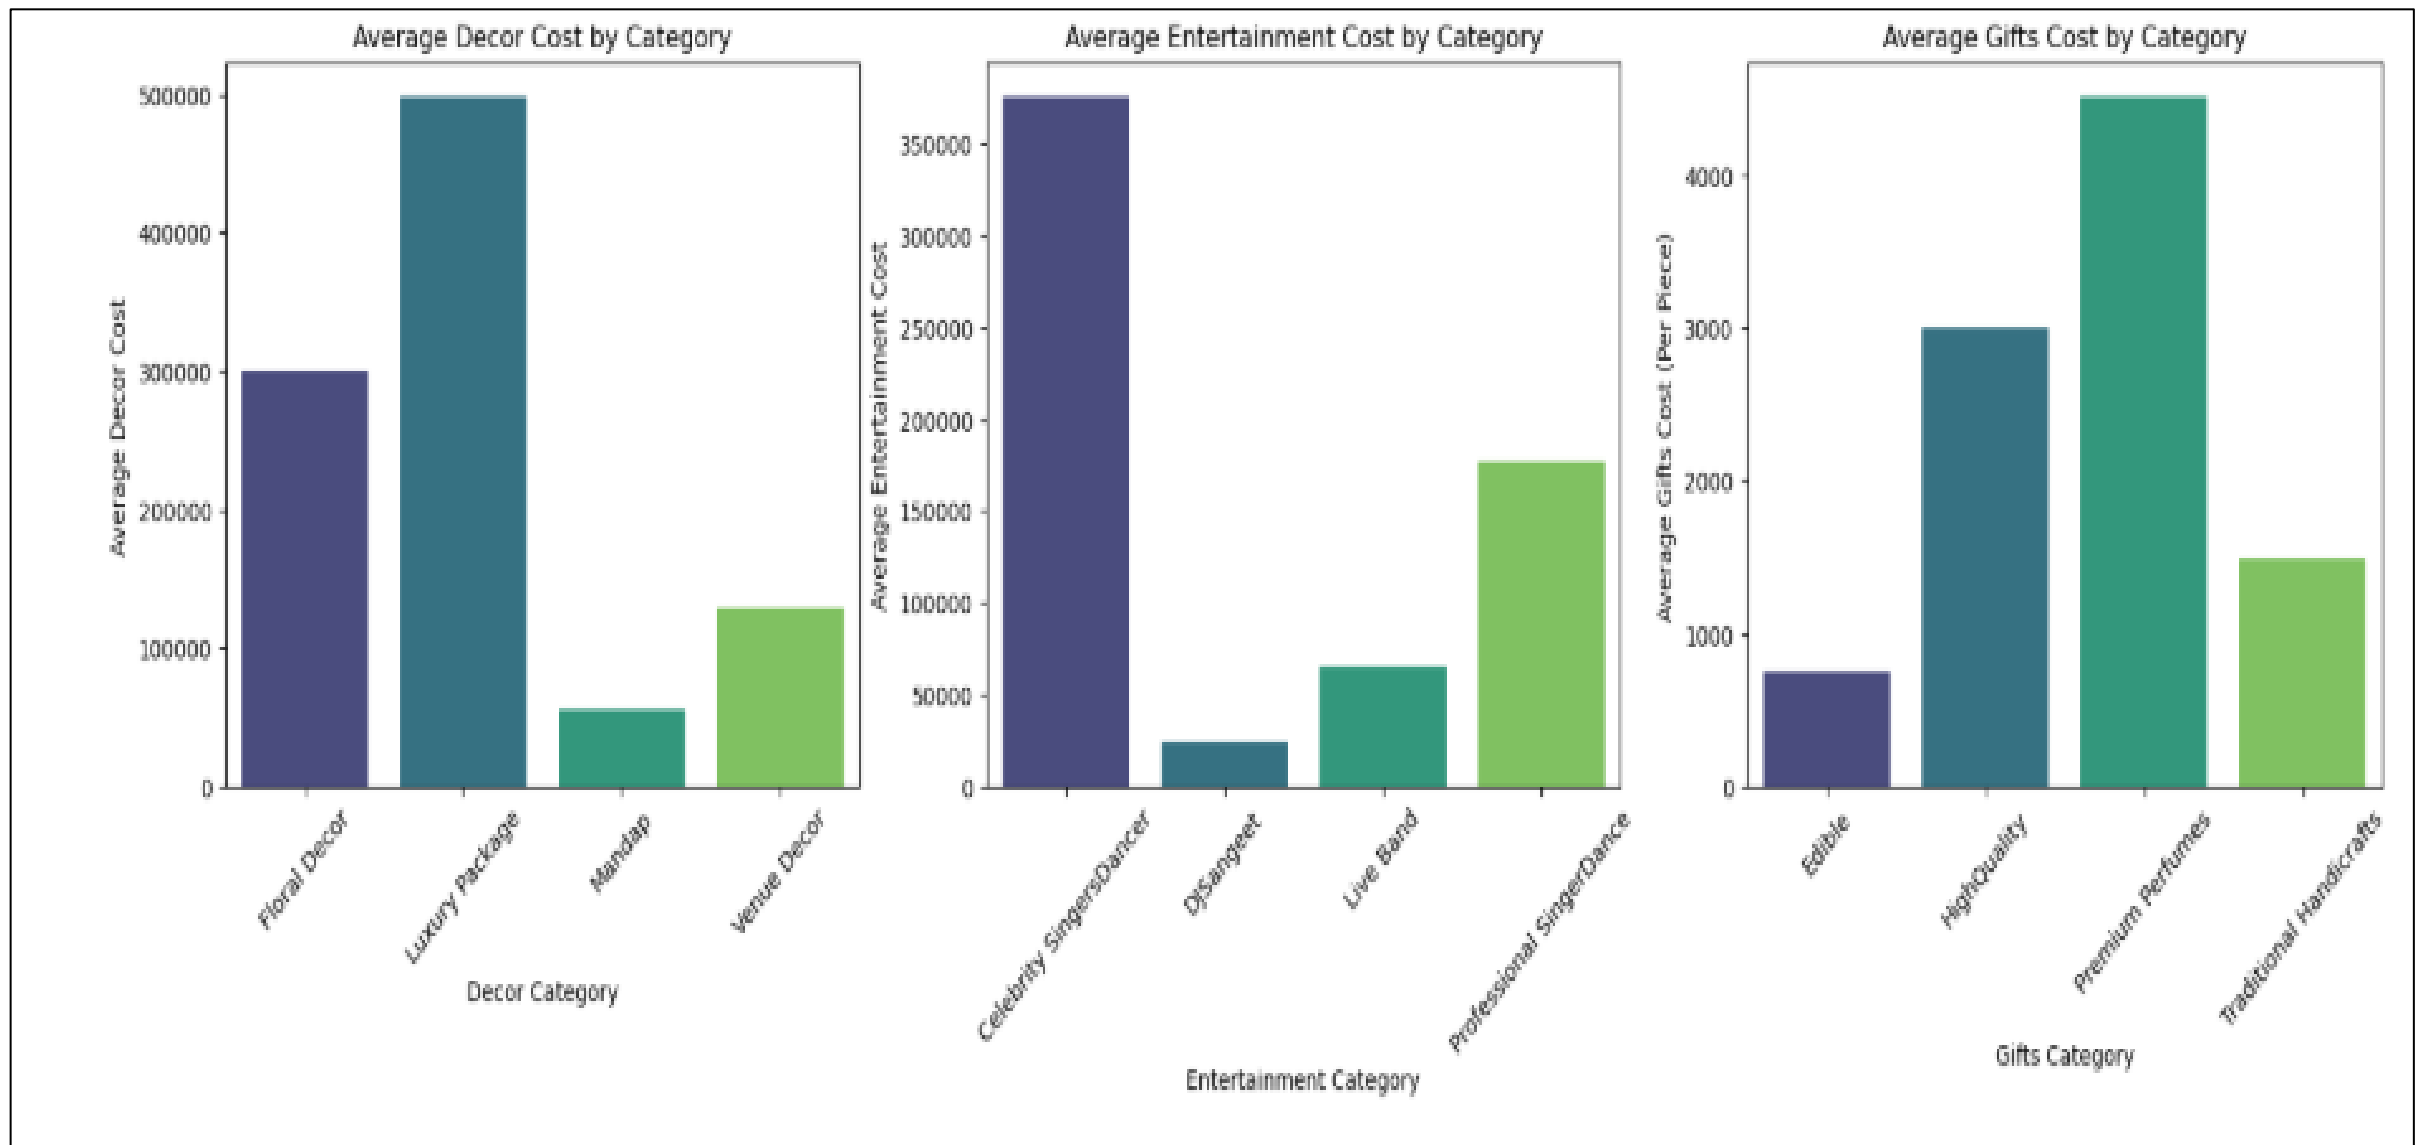

Figure 6 :- Average Decoration Cost per Wedding Type

Average Decor Cost by Category

- Luxury Package** has the highest average décor cost at approximately **₹500,000**, reflecting premium and elaborate event decorations.
- Floral Decor** follows with an average cost of around **₹300,000**, making it a popular mid-range decoration option.
- Venue Decor** costs approximately **₹130,000**, offering a more budget-friendly alternative while enhancing the event ambiance.
- Mandap** has the lowest average decoration cost at about **₹60,000**, making it the most economical décor component.
- Key insight:** Luxury decoration packages account for the highest spending, while individual décor elements provide more affordable customization options.

Average Entertainment Cost by Category

- Celebrity Singers/Dancers** command the highest average entertainment cost at approximately **₹375,000**, reflecting the premium charged by renowned performers.
- Professional Singers/Dancers** average around **₹180,000**, providing a balance between quality and affordability.
- Live Bands** cost approximately **₹65,000**, making them a cost-effective option for live entertainment.
- DJs** have the lowest average entertainment cost at around **₹25,000**, making them the most budget-friendly choice.
- Key insight:** Entertainment costs increase significantly with the popularity and exclusivity of the performers.

Average Gifts Cost by Category

- Premium Perfumes** are the most expensive gift category, with an average cost of approximately **₹4,500 per piece**.
- High-Quality Gifts** rank second at around **₹3,000 per piece**, offering premium gifting options at a moderate price.
- Traditional Handicrafts** cost approximately **₹1,500 per piece**, providing a balance between affordability and cultural value.
- Edible Gifts** are the most economical option, averaging around **₹800 per piece**.
- Key insight:** Premium gifting options require significantly higher investment, while edible and traditional gifts offer cost-effective alternatives for wedding guests.

Figure 7 :- Dashboard (Dynamic Filter Selection) Wedding Type → Place → Decor Category

Dynamic Filter Selection (Wedding Type → Place → Decor Category)

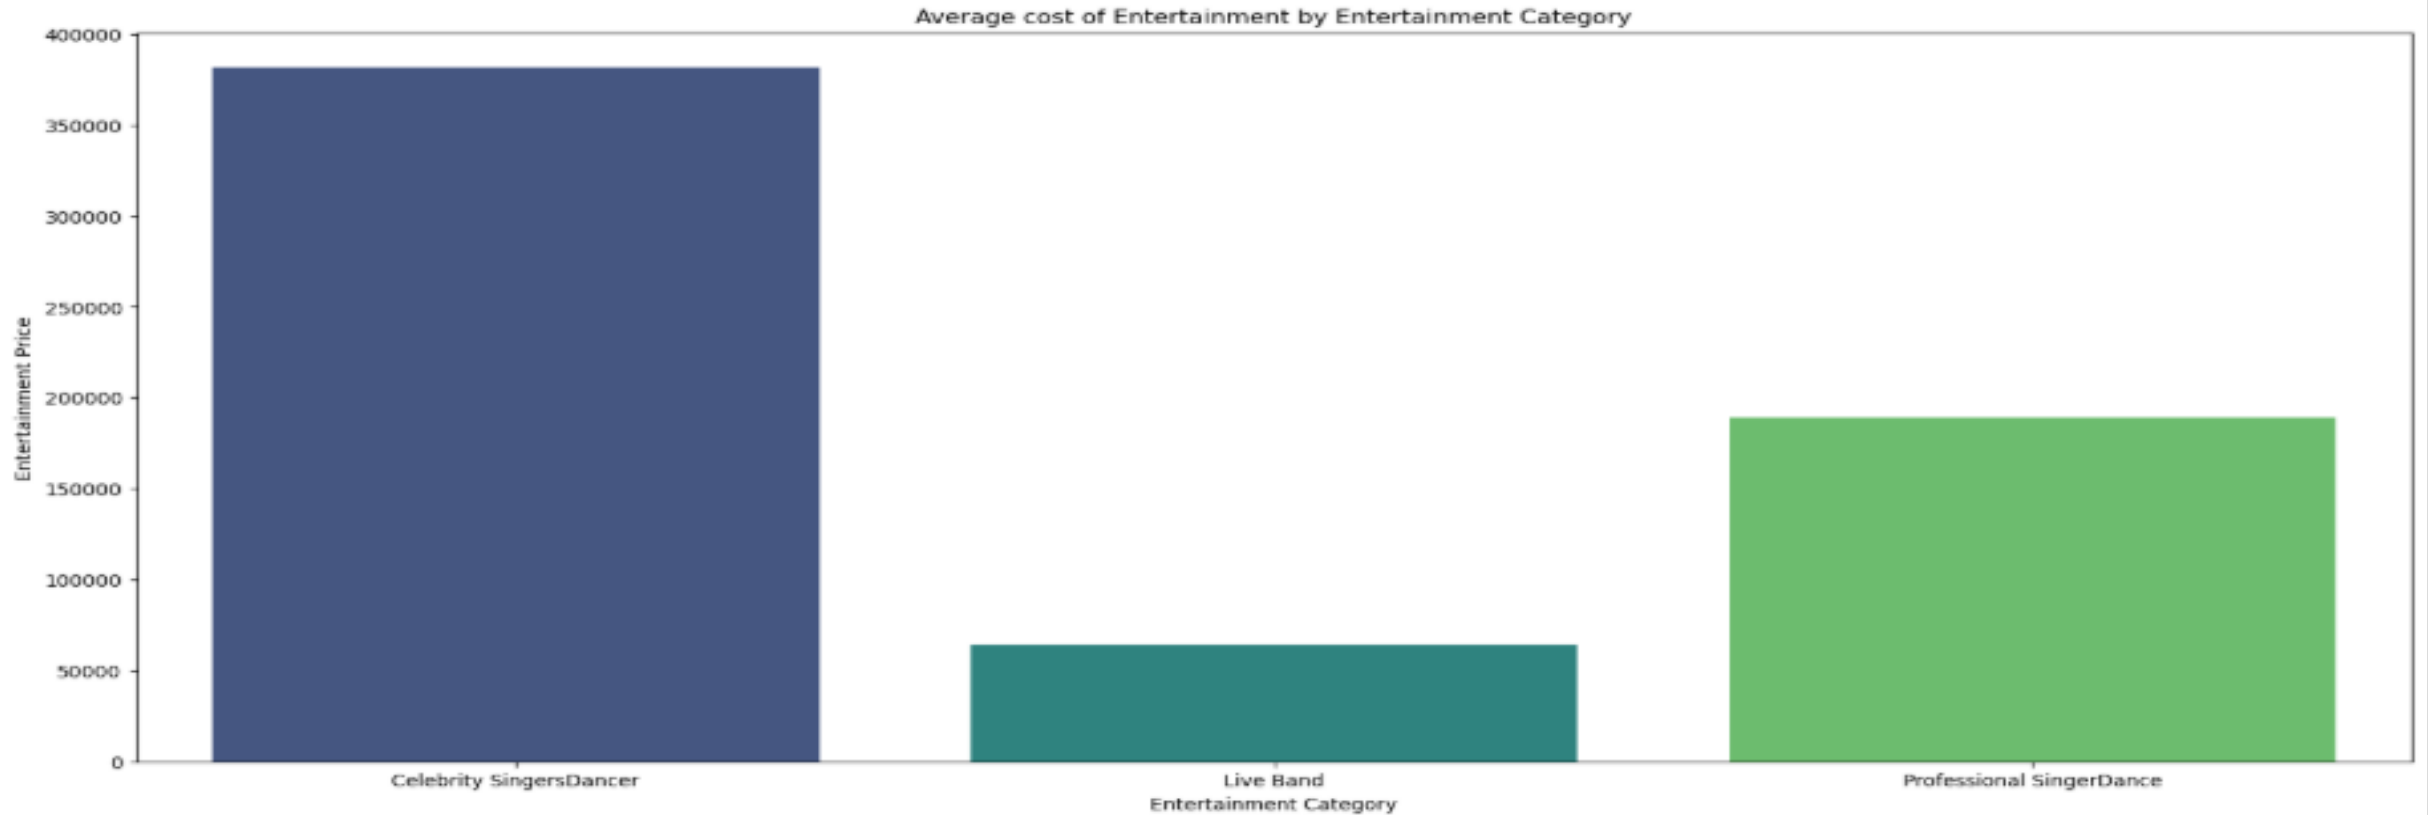

- The analysis begins by allowing the user to select a **Wedding Type**, followed by a **Place** and a **Decor Category**, creating a personalized filtering process.
- For this example, the selected inputs are **Temple Weddings**, **Tirupati**, and **Floral Decor**, representing a traditional wedding setup.
- After applying these filters, only the records matching the selected criteria are retained for further analysis.
- The filtered dataset is then grouped by **Entertainment Category**, enabling a comparison of average entertainment costs for the chosen wedding configuration.
- This dynamic filtering approach allows users to explore multiple combinations of wedding preferences and understand how costs vary across different scenarios.
- Key takeaway:** Interactive filtering makes the analysis flexible and user-centric, helping couples estimate expenses and compare entertainment options based on their specific wedding requirements rather than relying on overall averages.

**Figure 8 :- Dynamic Analysis: Entertainment Cost by Category
(Place: Tirupati | Decor: Floral Decor)**

Dynamic Analysis: Entertainment Cost by Category (Place: Tirupati | Decor: Floral Decor)

- For the selected filters (**Tirupati** and **Floral Decor**), **Celebrity Singers/Dancers** have the highest average entertainment cost at approximately **₹3.8 lakh**.
- Professional Singers/Dancers** rank second with an average cost of around **₹1.9 lakh**, offering a premium yet more affordable entertainment option.
- Live Bands** are the most economical choice, with an average entertainment cost of approximately **₹65,000**.
- The cost difference between **Celebrity Performers** and **Live Bands** is substantial, highlighting the premium associated with renowned artists.
- The selected wedding configuration demonstrates that entertainment expenses vary significantly depending on the type of performers chosen.
- Key insight:** For weddings in **Tirupati** with **Floral Decor**, entertainment budgets are primarily driven by performer selection, with celebrity performances requiring the highest investment while live bands provide a cost-effective alternative.

THANK YOU
